

DMX RS 485 Cable

Product Code ACC.DMX485.016

Reducing interference is very important when transferring signal as part of a DMX colour changing installation. Use this cable to join the DMX decoder to DMX controllers. This will help reduce interference, quicken installation and eliminate signal issues.

Features & Benefits

- Shielded cable
- Interference-free DMX signals (suitable for DMX2102)
- Supplied on 100m reels

Installation Information

Weight: 49.5G

Construction Material: Copper cable
